Graduate Course In Osteopathic Medicine

57th College Commencement

Graduation Pictures

List of Graduates

Academic Awards

Hospital Appointments

College Activities

Alumni Personals

July 1948
The Cranial Research Department

Offers Basic & Intermediate courses in Cranial technique.

The Basic Course includes the osteopathic cranial principles, the study of anatomy and physiology of structures.

Lectures—Slides—Demonstration—Technique

The Intermediate Course, in addition to continuation of cranial principles, includes brain dissection, laboratory demonstrations and advanced technique.

Members of other departments of the College and Hospital will contribute to the universal scope of these principles.

Date—September 27 to October 2, 1948, inc.

Class Limited—please make early application.

Tuition $150.00 $50.00 with application

Make application to office of the Dean:
Philadelphia College of Osteopathy
IT IS perhaps significant, at a time when we are thinking and planning for the Fiftieth Anniversary of the founding of the Philadelphia College of Osteopathy, that we should also be thinking and planning the founding of a Graduate School at the Philadelphia College of Osteopathy.

For a long time the administration of the College and many of the Alumni have given serious thought and consideration to the need of an established, accepted and accredited graduate school and the problems incident to its establishment and administration. The crystallization of the thoughts and desires along this line, is credited to a group of Alumni, local and afield. For more than a year they have been silently active, until, in April of this year, their thoughts were so formulated that the plan was first presented to a meeting of the Alumni at the Eastern Convention, and later, on May 22nd, to the Board of Trustees of the College, when the plan was, in principle, approved by the Board of Trustees.

The plan is now in Committee for the purposes of working out further details of its establishment and of its administration. It is the hope of all of those who are actively engaged in the project, as well as of those who are on the side lines, that the workable plan will be operative by the fall of 1949. It should be said in favor of those who are devoting their time to this very important educational and professional problem, that they are cognizant of the fact that it is one thing to establish a Graduate School and another thing to administer it; that their job goes a little bit further than the responsibility of the fellow in the bleachers who wants a “touch-down”; they are conscious of the things that are required in order for them to score and that it’s done according to rules, and that they have little to do with the making of these rules; that these things do not spring into existence and remain there by resolutions alone.

It should also be said in favor of those who are working so diligently toward this end, that they are entitled to all the time that is required in order to present the founded school and its workable administration—withstanding the individual demand for speed, for they are aware of the imperfections of the past, and the irreparable damage that can be done by hasty and incorrect conclusions. When one becomes truly bent upon the accomplishment of the graduate school he
cannot help but seek from many sources the information that is needed to carry it out, and he would never overlook or ignore factors that might prevent the establishment or adversely affect it as a going enterprise. Establishment of the Graduate School is important, the time within which it should be in operation is of relatively minor importance compared to its existence; that it should remain in existence, be accepted, worth while and meet the demands of the profession and of the Alumni is of paramount importance.

The Graduate School, no less than the Undergraduate School, should be a monument to the future of Osteopathy and its profession, and its founding should be upon sound policies and principles and far above individual and factional differences. If the existence of the Graduate School is of importance, then its future, no less than that of the undergraduate school, is of importance, and those of us who desire it most must temper our demands for results and for speed with a sympathetic understanding of the multiplicity of problems with which the planners are confronted, the solution of which, of necessity, becomes their responsibility.

In this project, as all enterprises, the results are controlled by the laws of nature. Nothing merely exists, or if it does, not for long, unless it is planned, fostered and cultivated. What we get in the end will be what we plant in the beginning.

Even when the announcement comes that the Graduate School is open, and operating, it would be a rare and unusual circumstance in the field of education, if it could be pointed to with finality. Education does not work that way. Education is a process of evolution, slow and sure, backward or forward, but never at a stand-still, and never at an end.

George H. Janeway

FACULTY APPOINTMENTS

Dr. Dorothy Diener, D.O., Des Moines Still College of Osteopathy, has recently been appointed Clinical Assistant, Department of Osteopathic Therapeutics, with special assignment to Cranial Research.

Dr. Theodore Kurz, A.B., University of Maryland, D.O., P.C.O., has recently been returned from military service and has been appointed Clinical Assistant, Department of Physical Therapy.

Dr. H. J. VanderMark has recently been appointed Clinical Assistant, Department of Otorhinolaryngology.

Dr. Bernard Alper, B.A., Temple University, D.O., P.C.O., has recently been appointed Clinical Assistant in Ophthalmology, Department of Otorhinolaryngology.

Dean's Engagements

Dr. Dressler's recent speaking engagements and the topics he discussed follow:

Jan. 5, 1948—Cleveland Academy of Osteopathic Medicine, Cleveland, Ohio—"Ethics of Science."

Jan. 31, 1948—Annual Dinner, Grand Rapids Osteopathic Hospital, Grand Rapids, Michigan—"The Place of Osteopathy in the History of Medicine."

March 17, 1948—New York City Osteopathic Society, New York—"Osteopathic Education."

March 18, 1948—LaSalle College, Philadelphia, Pennsylvania—"Tropical Medicine."

March 24, 1948—New York State Osteopathic Society, Amityville, Long Island—"Osteopathic Education."

March 27, 1948—New York State Osteopathic Society, Albany, New York—"Osteopathic Education."

March 31, 1948—Westchester County Osteopathic Society, White Plains, New York—"Osteopathic Education."

April 7, 1948—Muhlenberg College, Allentown, Pennsylvania—"Teratology, with Embryological Explanations."

April 26, 1948—Chicago College of Osteopathy, General Assembly, Chicago, Illinois—"Osteopathic Education."

May 7, 1948—Canadian Osteopathic Association, St. Catherine's, Ontario—"Coronary Occlusive Syndromes," "Peptic Ulcer," "Osteopathic Education."

May 8, 1948—Canadian Osteopathic Association, St. Catherine's, Ontario—"Coronary Occlusive Disease," Radio Broadcast—"Osteopathic Education."

May 11, 1948—Ohio Association of Osteopathic Physicians and Surgeons, Columbus, Ohio—"Osteopathic Education," "Certain Mechanisms of Sudden Unexpected Death."

Appreciation

Mrs. Henry J. Claus, president of the Women's Auxiliary of the Osteopathic Hospital of Philadelphia, wishes to extend thanks to all those who contributed to the success of the recent Lawn Fete by their donations, contributions, and by giving unstintingly of their time and efforts.

Dr. C. Haddon Soden, Professor of Osteopathic Therapeutics for many years, and now Professor Emeritus, will give his impressions of his experiences in Britain in the next issue of OSTEOPATHIC DIGEST. Dr. Soden returned recently from London, where he gave a series of lectures by special invitation.
Creating Endowments

It IS NOT an easy task to create an endowment. It is not easy, because at the start the obstacles appear to be unsurmountable and the amount to be worth while, is all but hopeless; because the establishment must begin at home, and to give the endowment its initial existence, funds must be allocated to it at most inopportune times when they are sorely needed elsewhere and in the day to day existence of the institution; because such a program looks to the future, and the problems of the present are apt to appear to be more urgent for solution.

It is most difficult in a young institution which from day to day is expected to perform, in full measure, all the requirements properly imposed by the public, governmental approving authorities and agencies, by an advancing profession; and by a multiplying Alumni. It is most difficult because the fulfillment, while requiring leadership, at the same time demands of all of us those collective and many qualities of integrity of purpose, of forthrightness and of application, such as are always required in the doing of things worth while.

One might ask what good and useful purpose does an Endowment serve professional schools today? The answer is found in the answer to another. What is the real function and the true relation of the professional College to its profession? Too often the College is thought of as performing a service to the individual, and as a place where one, for a fee, may obtain an education. If that is its sole and only function there is not much justification for an endowment.

There is, however, a much greater function; that of advancing, improving and perpetuating a useful profession, into which its graduates may enter with personal confidence of success, and with the knowledge that in the practice of his profession he may perform a service to humanity. If the latter is recognized as the function of the College, then there is evident a necessity for the establishment of such an institution, for such an institution is then a center of the profession upon which the profession is dependent and without such institutions the profession itself will in time cease to exist. The College must have perpetual existence, if its profession is to have a like existence.

It is mostly wishful thinking that endowments just grow, or all that is needed is that the institution be in existence. Unfortunately, or perhaps fortunately, this is not true. The institution itself must not only have existence, but it must also have a favorable past, and in addition to this the institution must have a plan for its future. Endowments do not come into existence without effort and planning. If the folks who are nearest to and most interested in and who are fully aware of the value of the services of the institution, do not feel called upon to make the effort, and apply themselves, and the available facilities, toward the endowment goal, why should the stranger in the midst be so concerned by the mere writing of a check, attempt to give the plan as well as the money.

Most of the professional colleges in the United States are endowed in various ways and in varying amounts, depending in a large measure upon the extent of the service performed, the length of time they have been in existence, and the extent of their individual plan in that direction. The advantages to these institutions that have endowments, in times of stress, have been immeasurable, but for the most part the greater advantage has been to relieve those institutions from financial embarrassment, so that the times of stress are to them, either non-existent, or so well cushioned by the application of endowment incomes that there is little or no embarrassment. But these institutions, as old as some of them are, have them chiefly because of personal interest and the initiative of the institutional trustees, and others, in the establishment and promotion of the endowment plan. They did not acquire their endowments by accident.

Realizing the soundness of these principles and the necessity for so doing, there was created in December of 1945 the Osteopathic Foundation of Philadelphia, a non-profit corporation, having as one of its functions the establishment of a permanent and continuing endowment fund, the income from which is to be applied for the benefit of the Philadelphia College of Osteopathy.

In this Endowment Fund there is now more than $23,000. The amount itself as an endowment is insignificant. The relatively small amount, however, is not
its condemnation. The significant thing is that in 1945 there came into existence an Endowment plan, and in two and one-half years it has reached this amount, and that without the plan there would not be any endowment.

It is significant, too, in that there is a plan to which all or any one can give who desire. There is no need for any one to be embarrassed when asked, "To what plan can I contribute?" This amount did not come into existence because of any large gifts, but rather from two sources: (a) according to the definite plan of the Foundation one-half of all funds given generally to the College is allocated to and becomes a part of the Endowment; (b) gifts to the College and specifically designated by the contributor for the Endowment Fund.

The funds which now constitute the Endowment and the interest exhibited by the Alumni and the graduating classes, is some indication of the future of the entire plan of the Osteopathic Foundation, and in particular its Endowment Fund for the College. The Class of 1946 pledged $36,162.50; the Class of 1947, $28,350.00; the Class of 1948, $9,000 (a total of $73,512.50) to this Endowment Fund, some of which has already been paid, and the payments are reflected in the $23,000 now in the Fund. The Class of 1923 at its reunion this June gave $550.00 to the endowment fund.

While we may think of the Endowment plan as something difficult to accomplish, yet the contrary is true. It is as easy as it seems difficult. It only needs the planning, a little action, some confidence in those about us, and an understanding of its needs and purposes; having these things, then only the time is required for its accomplishment.

GEORGE E. LETCHWORTH, JR., President of the Board.

---

School of Nursing

A testimonial dinner was held for Miss Margaret C. Pedder on May 14th at the Penn-Sheraton Hotel. A radio was presented to her as a memoir of her acting Director of Nurses.

She has accepted a position at Roxborough Memorial Hospital. We extend wishes for success in her new venture.

To Miss Esther L. Shipe, graduate of University of Pennsylvania, we wish much success and achievement as acting Director of Nurses.

The Lawn Fete of June 2 gave the Alumnae table a profit of $214.00 to be used for the purchase of a refrigerator for the 4521 Spruce Street Nurses' Home.

* * *

MARRIAGES

Kathleen MacCracken, '46, to Dr. Charles Noll, at Moorestown, N. J., June 19th. They will live at Lancaster, Pa., and both will work at the Lancaster Osteopathic Hospital. Dr. Noll is serving his 2nd year Surgical residency.

Edna Hass is now Mrs. Lindsay Lear, as of June 5th. Mrs. Lear will continue as Supervisor of Delivery Room after July 1st.

Gloria Holpappe, '47, to James McBride, April 3rd. Mrs. McBride is Assistant Night Supervisor.

Mary Kochut, '36, now Mrs. McGeehan, was married April 10th. She is employed at Physicians & Surgeons Hospital.

Bernice Hallman, general duty, Osteopathic floor, to Leonard Schulze on April 10th.

Eileen M. O'Connor, general duty, Osteopathic floor, to Donald Clune on June 19th.

* * *

BIRTHS

To Bill and Frances Leontz Kochler, '46, a daughter, June 1st.

To Dr. and Mrs. Kenneth Holbrook (Hilda Gonder, '42), a daughter, May 29th.

To Dr. and Mrs. Willard Sterrett, Jr. (Claire Grover, '43), a daughter, April 19th.

Ann Kochut, '35, and Dorothy Tyce, '46, are now working at Temple Hospital.

We are glad to have Miss Helen Morrison back with us on Osteopathic Floor.

The Student Nurses' Chorus is doing fine work under the direction of Mr. Benjamin Sharlip. They broadcast during the Easter Season for the Red Cross, sang at Valley Forge Veterans Hospital and will sing at Fort Dix on July 11th. There are some outstanding singers in this group.

The Spring Dance held this year, May 7th, at the Bata Women's Club, was a huge success.

---

ALUMNI NOTES

1936

Philip Lessig announces the opening of an office for the study and treatment of gastro-intestinal and parasitological diseases at the Central Medical Building, 1737 Chestnut St., Philadelphia, Pa.

1937

Carl E. Jones died March 24, 1948.

1939

Raymond M. Chatin announces the arrival of Ellen Laurie, May 13, 1948—7 lbs. 2 oz.

1941

Norman Lentin has opened a private hospital for the treatment of disease of the eye, ear, nose and throat at 403 Cumberland St., Lebanon, Pennsylvania. His hospital consists of a waiting room, consulting rooms, laboratory, operating room and two patients' rooms with six beds. Prior to opening his hospital, he was team physician for the Pittsburgh Steelers of the National Professional Football League.

1944

Charles Steiner announces the arrival of Susan Joan, April 5, 1948.

Robert J. Leonard and Edward E. Parris announce the opening of their offices at 6422 Whitsett Ave., North Hollywood, Calif.

1945

Gerard C. Shaw announces his marriage to Eleanor Elizabeth Opiekm, April 3, 1948.

1946

Henry Nemirofsky has legally changed his name of Henry Nemirof.

Ruth K. Giger, Secretary in the Office of Admissions, was married to Roland H. Wilson on Saturday, June 12, 1948, at the Calvary Presbyterian Church, Highland Park, Upper Darby, Penna. The reception was held at the Penn-Sheraton Hotel.

Astrid Anne Delitzsch, Sophomore student at the Philadelphia College of Osteopathy, was married to Albert F. Lenhart on Saturday, June 12, 1948, at the Calvary Presbyterian Church, Highland Park, Upper Darby, Penna. The reception was held at the Penn-Sheraton Hotel.

Helen E. Cloukey, Junior student at the Philadelphia College of Osteopathy, was married to Leon Benedict on Saturday, June 12, 1948, Bethlehem, Penna.
57th College Commencement

(Commencement pictures, list of graduates, hospital appointments and price winners are published on following pages.)

COMMENCEMENT PRINCIPALS: Left to right: The Rev. Col. C. B. Da Bell, College chaplain; Dr. Frank Lankard, Dean of Brothers College, Drew University, commencement speaker; Dr. Otterbein Dressler, Dean of the College; George E. Letchworth, Jr., President of the Board of Trustees of the College.

TWENTY-FIVE students of the Philadelphia College of Osteopathy received their degrees in course at the 57th college commencement exercises of the College in Irvine Auditorium on Saturday, June 5. The ceremonies were impressive and well-attended, both by alumni, faculty, and relatives and friends of the graduates.

Principal speaker was Dr. Frank Glenn Lankard, Dean of Brothers College, Drew University, Madison, N. J. (A summary of Dr. Lankard’s commencement address appears in the next column.) George E. Letchworth, Jr., Esq., president of the board of trustees of the College, presided and presented the diplomas. The graduates were presented by the Dean, Dr. Otterbein Dressler.

The ceremonies were preceded by the traditional academic procession, led by the officers of administration, and comprising the faculty and graduating class, in caps and gowns. The invocation and benediction were by the Rev. Col. C. B. Da Bell, College chaplain. Featuring the program was an organ recital by Frederick E. Drechsler.

Two osteopathic physicians received their degrees of Master of Science in Osteopathy. They were Dr. Lester Eisenberg and Dr. Clyde Henry. Among the twenty-five graduates were two women, Dr. Margaret H. Schaffe and Dr. Miriam B. Weinberg.

“Living Can Be A Great Adventure”

(Abstract of Commencement address delivered by Dr. Frank Glenn Lankard, Dean of Brothers College, Drew University, Madison, N. J., at 57th graduation ceremonies of Philadelphia College of Osteopathy in Irvine Auditorium, Saturday, June 5.)

IN THE final book of the Bible, there is the description of a city foursquare. It is possible for a life to be foursquare. It is possible for a civilization to live in four great dimensions—work, justice, freedom and moral power. Let us allow these four ideals to pass in review before our minds and see what they might mean to our thinking and living.

Why do so many people give work such a wide berth? They appear to regard it as a plague to be avoided! This attitude is regrettable for work is a great emancipator. It is the key to high adventure. Many students do not find a course interesting or thrilling because they never work at it. We need to give ourselves to a thing or a cause to have a rich reward. Recently I heard of a doctor who spent most of his time playing checkers. He had had a brilliant record in college and medical school, but patients did not come to him. They were suspicious of a doctor who had so much time for checkers. They surmised he was not working over his medical courses or keeping up in his medical journals.

The second ideal is justice. Justice is a strong-sounding word but, more significant still, justice is the moral quality of the universe. It was the prophet, Amos, who identified justice with the character of God. The Almighty said, “Let justice roll down as water and righteousness as a mighty stream.” Justice, then, is an integral part of the very structure of our universe and since it is an integral part of our very universe we dare not fool around with justice. We can join hands with justice and have happiness and peace or we can defy justice

(Continued on Page 116)
Candid Camera Records 57th

WOMEN GRADUATES—Two lone girl graduates extend felicitations to each other: Dr. Miriam Weinberg and Dr. Margaret Schaffle. Dr. Schaffle was an outstanding award winner.

MASTERS OF SCIENCE—Recipients of M. S. in O. congratulate each other: Dr. Clyde Henry and Dr. Lester Eisenberg. Both took this degree after graduate work at the College.

FACULTY REPRESENTATION—Dr. William Baldwin, Professor of Physiology; Dr. Angus Cathie, Professor of Anatomy; Dr. Edwin Cressman, Professor of Dermatology and Syphilology; Dr. Joseph C. Snyder, President Alumni Association.
Commencement of the College

TRUSTEES—Dr. William C. Bugbee and Dr. R. McFarlane Tilley, members of the Board of Trustees of the College, were prominent among the distinguished guests at the ceremonies.

TIME OUT FOR A CHAT—Dr. Clyde Saylor, Clinical Assistant, Department of Osteopathic Therapy, and Dr. Roy E. Hughes, member of Board of Trustees of College.

OTHER FACULTY MEMBERS—Dr. Boyd B. Button, Associate, Department of Pathology; Dr. H. Willard Sterrett, Professor of Urology; Dr. Kenneth Senior, Professor of Chemistry; Dr. Joseph Py, Professor of Preventive Medicine and Bacteriology.
Graduating Class of June, 1948

DEGREES, COMMENCEMENT, JUNE 5TH, 1948

Degrees in Course

Master of Science in Osteopathy

Dean’s Award ...................... 25.00—Molinari, John

and be broken on the moral law of the universe. In every age and in every condition when we take our stand with justice we take on the character of God. In the battle against ignorance and stupidity we can all be Knights of the Holy Grail. There are a hundred fields and more to ride out upon the Field of Honor to battle for right and justice.

The third ideal is freedom. Freedom is an American tradition. It is illustrated by our forefathers who came over in the Mayflower and later by the indignant citizens of Boston who threw the tea into the harbor. Patrick Henry’s famous statement, “Give me liberty or give me death,” epitomizes the convictions of our forefathers to whom freedom was a very precious thing. It was more precious to some of them than life itself. During the war, Roosevelt and Churchill met somewhere in the Atlantic and drew up what is known as the Atlantic Charter. The heart of the Atlantic Charter has to do with four freedoms. Already we have been hypocritical in our allegiance to these freedoms, but once acclaimed they will haunt us until they come true. But freedom, even in America, is not a gift. Our forefathers had to achieve it and we must preserve it. What to them was a passion to us is a possession, but liberty at any age is at the price of eternal vigilance.

The fourth quality is moral power. All of us are aware of the physical universe that impinges upon us. Just as certainly there is a moral universe that undergirds us. A wise and kindly man raises the disturbing question whether we in America today are not living on the moral capital reserves of our fathers and mothers and of their parents. Are we handing on to the next generation faith, character and ideals in quality and quantity equal to those which were given to us? If not, we can anticipate empty and unhappy lives for many of our children and a sad deterioration of our community life. If the man is right, it is truly tragic for it is the moral universe that gives meaning and significance to our community life.

It seems quite clear that the thing which we call giving ourselves in service to our fellow beings is one of the structural characteristics of our moral universe. Woodrow Wilson expressed the moral law of life in this way when speaking to the students of Swarthmore College: “You are here to enrich the world and you impoverish yourselves if you fail in this attempt.”
The Graduate School
Graduate Course In Osteopathic Medicine

As this issue of the Digest goes to press only three weeks of the four weeks of Osteopathic Medicine will have been completed. The detailed program for these three weeks was as follows:

PART I

Five Days—June 7-11, 1948

MONDAY, JUNE 7th

9:00 A.M. to 10:00 A.M.—Registration

10:30 A.M. to 11:30 A.M.—Goitre, Dr. Ralph L. Fischer

11:40 A.M. to 12:00 A.M.—Practical Phases of Androgenic and Estrogenic Therapeutics, Dr. Earl F. Riceman

1:00 P.M. to 3:00 P.M.—Hemolytic Anaemia, Dr. Max Strumia, Bryn Mawr Hospital

3:10 P.M. to 4:00 P.M.—Survey of Vitamin Therapy, Dr. Ralph L. Fischer

4:10 P.M. to 5:00 P.M.—Obesity, Dr. Earl F. Riceman

TUESDAY, JUNE 8th

10:00 A.M. to 12:00 A.M.—Diseases of the Pituitary Gland, Drs. Riceman and Fischer

12:10 A.M. to 1:00 P.M.—Hormones from a Chemist’s Viewpoint, Dr. Alan R. Day, University of Pennsylvania

2:30 P.M. to 4:00 P.M.—CLINIC, Goitre and Pituitary Diseases, Dr. Earl F. Riceman in charge

4:10 P.M. to 5:00 P.M.—The Pathology Underlying the Pituitary Syndromes, Dr. Ottenbein Dressler and Assistants

WEDNESDAY, JUNE 9th

9:00 A.M. to 10:00 A.M.—The Diagnosis of Acute and Chronic Diseases of the Gall Bladder, Dr. J. Milton Zimmerman, Dayton, Ohio

10:10 A.M. to 11:00 A.M.—The Management of Gall Bladder Disease, Dr. Earl F. Riceman

11:10 A.M. to 12:00 A.M.—Radiology, Dr. Paul T. Lloyd and Associates

1:00 P.M. to 2:00 P.M.—CLINIC, Gall Bladder Disease, Dr. Earl F. Riceman in charge

2:10 P.M. to 3:00 P.M.—Nutritional and Disease States of the Small Intestine, Dr. Earl F. Riceman

3:10 P.M. to 4:00 P.M.—The Practical Implications of Gastroscopy, Dr. J. Milton Zimmerman

THURSDAY, JUNE 10th

9:00 A.M. to 10:00 A.M.—The Pathology of Peptic Ulcer, Dr. Ottenbein Dressler and Assistants

10:10 A.M. to 11:00 A.M.—Osteopathic Management of Uncomplicated Peptic Ulcer, Dr. J. Milton Zimmerman

11:10 A.M. to 12:00 A.M.—Radiology, Dr. Paul T. Lloyd and Associates

12:10 P.M. to 1:00 P.M.—Further Studies of Hormones, Dr. Alan R. Day

2:00 P.M. to 3:00 P.M.—CLINIC, Gastric Diseases, Dr. Riceman in charge

3:10 P.M. to 4:00 P.M.—Clinical Considerations of Complicated Peptic Ulcer, Dr. Earl F. Riceman

4:10 P.M. to 5:00 P.M.—Undernutrition, Dr. J. Milton Zimmerman

FRIDAY, JUNE 11th

9:00 A.M. to 10:00 A.M.—The Pathology of Diverticulitis of the Digestive Tube and of Amebiasis—Dr. Ottenbein Dressler and Assistants

10:10 A.M. to 11:00 A.M.—Polyposis, Pyloritis, Diverticulosis, Diverticulitis, Dr. J. Milton Zimmerman

11:10 A.M. to 12:00 A.M.—Radiology, Dr. Paul T. Lloyd and Associates

1:00 P.M. to 2:00 P.M.—CLINIC, Disease of the Bowel, Dr. Earl F. Riceman in charge

2:10 P.M. to 3:00 P.M.—Basic Nutrition and Convalescent Diets, Dr. Earl F. Riceman

3:10 P.M. to 4:00 P.M.—Ulcerative Cilitis, Irritable Colon, Amebiasis and Barritary Dysentery, Dr. J. Milton Zimmerman

PART II

Five Days—June 14-18, 1948

MONDAY, JUNE 14th

9:00 A.M. to 10:00 A.M.—Antibiotics, Dr. M. G. Sevag, University of Pennsylvania

10:10 A.M. to 11:00 A.M.—Diseases of the Pancreas, Dr. R. L. Fischer

11:10 A.M. to 12:00 A.M.—Radiology, Dr. Paul T. Lloyd and Associates

1:00 P.M. to 2:00 P.M.—Gastrointestinal Cancer, Dr. Earl F. Riceman

2:10 P.M. to 4:00 P.M.—CLINIC, Digestive Cancer, Dr. Earl F. Riceman in charge

4:10 P.M. to 5:00 P.M.—The Pathologists’ Views of Cancer, Dr. Ottenbein Dressler and Assistants

REGISTRANTS

First Week

Dr. William Baldwin, Jr., P.C.O. 1940, Philadelphia, Penna.

Dr. Stuart Harkness, P.C.O. 1938, Harrisburg, Penna.

Dr. Harold W. Witt, K.C. 1943, Kansas City, Missouri.

Dr. Keith Sisson, K.C. 1943, Grand Rapids, Michigan.

Dr. Donald S. Cann, P.C.O. 1935, Daytona Beach, Florida.

Dr. Leonard V. Vigeneman, P.C.O. 1943, Forest Hills, Queens, N. Y.

Dr. E. N. McIntosh, A.S.O. 1917, Richmond, Virginia.

Dr. J. W. Meenan, K.C.O.S. 1936, Battle Creek, Michigan.

Dr. I. Siegel, P.C.O. 1940, Litch, Penna.

Dr. Ralph Tomei, P.C.O. 1939, Philadelphia, Penna.

Dr. Frederick Hettler, K.C.O.S. 1942, Kirksville, Missouri.

Dr. Albert Kette, P.C.O. 1943, Hatfield, Penna.

Dr. W. J. Davis, K.C. 1933, Kansas City, Missouri.

Dr. H. J. Hartman, P.C.O. 1933, Fort Lauderdale, Florida.

Dr. K. T. Steinberg, P.C.O. 1940, York, Penna.

Dr. Herman Pope, P.C.O. 1946, Philadelphia, Penna.

Dr. Morton Terry, P.C.O. 1945, Philadelphia, Penna.

Second Week

Dr. William Baldwin, Jr., P.C.O. 1940, Philadelphia, Penna.

Dr. Stuart Harkness, P.C.O. 1938, Harrisburg, Penna.

Dr. Harold Witt, K.C. 1943, Kansas City, Missouri.

Dr. Keith Sisson, K.C. 1943, Grand Rapids, Michigan.

Dr. Elizabeth M. Scott, K.C. 1939, Mt. Clemens, Michigan.

Dr. Donald S. Cann, P.C.O. 1935, Daytona Beach, Florida.
OSTEOPATHIC DIGEST

Dr. K. J. Davis, K.C. 1933, Kansas City, Missouri.
Dr. J. W. Meehan, K.C.O.S. 1936, Battle Creek, Michigan.
Dr. I. Siegel, P.C.O. 1940, Lititz, Penna.
Dr. Frederick Hetzler, K.C.O.S. 1942, Kirkville, Missouri.
Dr. Albert Kette, P.C.O. 1943, Hatfield, Penna.
Dr. Doris Coker, K.C.O.S. 1937, Panama City, Florida.
Dr. K. T. Steigelman, P.C.O. 1940, York, Penna.
Dr. Herman Poppe, P.C.O. 1946, Philadelphia, Penna.
Dr. Morton Terry, P.C.O. 1945, Philadelphia, Penna.

Third Week

Dr. William Baldwin, Jr., P.C.O. 1940, Phila., Penna.
Dr. Stuart Harkness, P.C.O. 1938, Harrisburg, Penna.
Dr. Harold Witt, K.C. 1943, Kansas City, Missouri.
Dr. Donald S. Camp, P.C.O. 1935, Daytona Beach, Florida.
Dr. J. W. Meehan, K.C.O.S. 1936, Battle Creek, Michigan.
Dr. I. Siegel, P.C.O. 1940, Lititz, Penna.
Dr. Ralph Tornyi, P.C.O. 1939, Phila., Pa.

Dr. Frederick Hetzler, K.C.O.S. 1942, Kirkville, Missouri.
Dr. Albert Kette, P.C.O. 1943, Hatfield, Penna.
Dr. Doris Coker, K.C.O.S. 1937, Panama City, Florida.
Dr. K. T. Steigelman, P.C.O. 1940, York, Penna.
Dr. Herman Poppe, P.C.O. 1946, Phila., Pa.

Fourth Week

Dr. William Baldwin, Jr., P.C.O. 1940, Phila., Penna.
Dr. Stuart Harkness, P.C.O. 1938, Harrisburg, Penna.
Dr. Harold Witt, K.C. 1943, Kansas City, Missouri.
Dr. Sidney Koehman, P.C.O. 1944, Phila., Penna.

TUESDAY, JUNE 15th
9:00 A.M. to 10:00 A.M.—Antibiotics, Dr. M. G. Sevag
10:10 A.M. to 11:00 A.M.—Constipation, Dr. Earl F. Riceman
11:10 A.M. to 12:00 A.M.—Differential Diagnosis of Medical and Surgical Kidney, Dr. William F. Daiber
12:10 P.M. to 1:00 P.M.—Vitamins and Antivitamins, Dr. Alan R. Day
2:30 P.M. to 4:00 P.M.—CLINIC, Renal Insufficiency, Dr. William F. Daiber in charge
4:10 P.M. to 5:00 P.M.—Pathology of the Medical Kidney, Dr. Otterbein Dressler and Assistants

WEDNESDAY, JUNE 16th
9:00 A.M. to 10:00 A.M.—Cancer of the Lung, Pancreas and Bone, Dr. Ralph L. Fischer
10:10 A.M. to 11:00 A.M.—Food Poisoning, Dr. William F. Daiber
11:10 A.M. to 12:00 A.M.—Radiology, Dr. Paul T. Lloyd and Associates
1:50 P.M. to 3:00 P.M.—CLINIC, Jaundice, Dr. Earl F. Riceman in charge
3:10 P.M. to 4:00 P.M.—Liver Function Tests in Obstructive and Hepatocellular Jaundice, Dr. Earl F. Riceman
4:10 P.M. to 5:00 P.M.—Primary and Secondary Cancer of the Lung, Dr. Otterbein Dressler and Assistants

THURSDAY, JUNE 17th
9:00 A.M. to 10:00 A.M.—Certain Problems in the Pathological Physiology of Carcinoma, Dr. Otterbein Dressler and Assistants
10:10 A.M. to 11:00 A.M.—Psychosomatic Syndromes, Dr. Theodore W. Stiegler
11:10 A.M. to 12:00 A.M.—Radiology, Dr. Paul T. Lloyd and Associates
12:10 P.M. to 1:00 P.M.—Further Studies of Vitamins and Antivitamins, Dr. Alan R. Day
1:50 P.M. to 3:00 P.M.—CLINIC, Psychosomatic States, Dr. Victor R. Fisher in charge
3:10 P.M. to 4:00 P.M.—Clinical Considerations in Arthritis and Arthralgia, Dr. Theodore Stiegler

FRIDAY, JUNE 18th
9:00 A.M. to 10:00 A.M.—Further Study of the Pathological Physiology of Carcinoma, Dr. Otterbein Dressler and Assistants
10:10 A.M. to 11:00 A.M.—Psychosomatic Syndromes (cont'd), Dr. Theodore Stiegler
11:10 A.M. to 12:00 A.M.—Radiology, Dr. Paul T. Lloyd and Associates
1:30 P.M. to 3:00 P.M.—CLINIC, Cancer, Dr. Victor R. Fisher in charge
3:10 P.M. to 4:00 P.M.—Clinical Considerations in Arthritis and Arthralgia (cont'd), Dr. Theodore Stiegler

PART III

Five Days—June 21-25, 1948

MONDAY, JUNE 21st
8:00 A.M. to 9:00 A.M.—A Discussion of Blood Formation, Dr. Clarence E. Baldwin
9:10 A.M. to 10:00 A.M.—Antibiotics, Dr. M. G. Sevag
10:10 A.M. to 11:00 A.M.—The Hormonal Aspects of Diabetes Mellitus, Dr. Neil R. Kitchen, Detroit, Michigan
11:10 A.M. to 12:00 A.M.—The Management of Diabetes Mellitus, Dr. Earl F. Riceman
1:50 P.M. to 3:00 P.M.—CLINIC, Diabetes, Dr. Earl F. Riceman in charge
3:10 P.M. to 4:00 P.M.—Typhoid Fever and Brucellosis, Dr. Neil R. Kitchen

TUESDAY, JUNE 22nd
8:00 A.M. to 9:00 A.M.—Surgery and Childbirth in Diabetics, Dr. Ralph L. Fischer
9:10 A.M. to 10:00 A.M.—Antibiotics, Dr. M. G. Sevag
10:10 A.M. to 11:00 A.M.—The Mechanism in the Production of Leniopenia and Lenkocytosis, Dr. Neil R. Kitchen
11:10 A.M. to 12:00 A.M.—Practical Considerations of the Vascular Complications of Diabetes Mellitus, Dr. Earl F. Riceman
12:10 P.M. to 1:00 P.M.—Further Studies of Vitamins and Antivitamins, Dr. Alan R. Day
2:00 P.M. to 3:00 P.M.—CLINIC, Diseases of the Erythrocytes, Dr. Clarence E. Baldwin in charge
3:10 P.M. to 4:00 P.M.—A Critique of the Management of Microcytic and Macrocytic Anemia, Dr. Neil R. Kitchen
4:10 P.M. to 5:00 P.M.—Cells of the Blood, Dr. Otterbein Dressler and Assistants

WEDNESDAY, JUNE 23rd
9:00 A.M. to 10:00 A.M.—The Management of Bronchial Asthma, Dr. Ralph L. Fischer
10:10 A.M. to 11:00 A.M.—Food and Drug Allergy, Dr. Victor R. Fisher
11:10 A.M. to 12:00 A.M.—Radiology, Dr. Paul T. Lloyd and Associates
1:50 P.M. to 3:00 P.M.—CLINIC, Viral and Rickettsial Diseases, Dr. Victor R. Fisher in charge
3:10 P.M. to 4:00 P.M.—Diseases of the Blood Platelets, Dr. Clarence E. Baldwin
4:10 P.M. to 5:00 P.M.—Pathology of Certain Diseases involving the Blood Forming Organs, Dr. Otterbein Dressler and Assistants
THURSDAY, JUNE 24th
9:00 A.M. to 10:00 A.M.—The Pathology of the Lymphoblastomata, Dr. Otterbein Dressler and Assistants
10:10 A.M. to 11:00 A.M.—The Lymphomata and Hodgkins Disease, Dr. Clarence E. Baldwin
11:10 A.M. to 12:00 A.M.—Radiology, Dr. Paul T. Lloyd and Associates

12:10 P.M. to 1:00 P.M.—Further Studies of Vitamins and Antivitamins, Dr. Alan R. Day
2:10 P.M. to 3:00 P.M.—Radiology, Dr. Paul T. Lloyd and Associates
3:10 P.M. to 4:30 P.M.—CLINIC, Lymphomata and Hodgkins Disease, Dr. Clarence E. Baldwin in charge

FRIDAY, JUNE 25th
9:00 A.M. to 10:00 A.M.—Certain Acicular Parasites Parasitic to Man, Dr. Otterbein Dressler and Assistants
10:10 A.M. to 11:00 A.M.—Experience with the Antihistaminic Drugs, Dr. Victor R. Fisher
11:10 A.M. to 12:00 A.M.—Radiology, Dr. Paul T. Lloyd and Associates
1:00 P.M. to 2:00 P.M.—CLINIC, Infectious Mononucleosis, Dr. Clarence Baldwin in charge
2:10 P.M. to 3:00 P.M.—AMEBIASIS, Dr. Ramon DeRivas
3:10 P.M. to 4:00 P.M.—Streptococceous Infections, Dr. Ralph L. Fisher

THE PROGRAM FOR THE LAST WEEK WILL BE AS FOLLOWS—

PART IV

Five Days—June 28-July 2, 1948

MONDAY, JUNE 28th
10:00 A.M. to 11:00 A.M.—The Use of Instruments in Cardiac and Vascular Diseases, Dr. Victor R. Fisher
11:10 A.M. to 12:00 A.M.—The Physiopathology, Prognosis and Osteopathic Manipulative Treatment in Valvular Defects, Dr. Ralph L. Fisher
1:00 P.M. to 2:00 P.M.—Basic Electrocardiography, Dr. Wm. F. Daiber
2:10 P.M. to 4:00 P.M.—CLINIC, Endocarditis and Valve Defects, Dr. Wm. F. Daiber in charge
4:10 P.M. to 5:00 P.M.—Pathology of Vascular Diseases, Dr. Otterbein Dressler and Assistants

TUESDAY, JUNE 29th
9:00 A.M. to 10:00 A.M.—Bronchiectasis, Lung Abscess and Gangrene, Dr. Ralph L. Fisher
10:10 A.M. to 11:00 A.M.—Dyspnea, Cyanosis and Edema, Dr. Victor R. Fisher
11:10 A.M. to 12:00 A.M.—Radiology, Dr. Paul T. Lloyd and Associates
12:10 P.M. to 1:00 P.M.—Antihistaminic Drugs—A Chemist’s Appraisal, Dr. Alan R. Day
2:10 P.M. to 4:00 P.M.—CLINIC, Typical and Atypical Pneumonia, Dr. Victor R. Fisher in charge
4:10 P.M. to 5:00 P.M.—Basic Electrocardiography, Dr. William F. Daiber

WEDNESDAY, JUNE 30th
9:00 A.M. to 10:00 A.M.—An Analysis of Chest Pain, Dr. Victor R. Fisher
10:10 A.M. to 11:00 A.M.—Pleural Effusion, Empyema and Bronchopleural Fistula, Dr. William F. Daiber
11:10 A.M. to 12:00 A.M.—Radiology, Dr. Paul T. Lloyd and Associates
1:00 P.M. to 2:00 P.M.—Cardiac Drugs, Dr. William F. Daiber
2:10 P.M. to 3:00 P.M.—Curable Heart Disease, Dr. Ralph Fischer
3:10 P.M. to 4:30 P.M.—CLINIC, Coronary Artery Disease, Dr. William F. Daiber in charge

THURSDAY, JULY 1st
9:00 A.M. to 10:00 A.M.—Diagnosis of Peripheral Vascular Diseases, Dr. Victor R. Fisher
10:10 A.M. to 11:00 A.M.—Differential Diagnosis of the Valvular Defects and the Arrhythmias, Dr. Charles Werrell, Palmyra, Pa.
11:10 A.M. to 12:00 A.M.—Radiology, Dr. Paul T. Lloyd and Associates
12:10 P.M. to 1:00 P.M.—The Autonomic Drugs, Dr. Alan R. Day
2:10 P.M. to 4:00 P.M.—CLINIC, Congenital Cardiac Defects, Dr. William Spaeth in charge
4:10 P.M. to 5:00 P.M.—Hypertensive Heart Disease, Dr. Charles Werrell

FRIDAY, JULY 2nd
9:00 A.M. to 10:00 A.M.—The Pathology of Rheumatic Carditis, Dr. Otterbein Dressler and Assistants
10:10 A.M. to 11:00 A.M.—Pertinent Facts about Rheumatic Fever as It Is Related to Heart Disease, Dr. William F. Daiber
11:10 A.M. to 12:00 A.M.—Radiology, Dr. Paul T. Lloyd and Associates
1:00 P.M. to 2:00 P.M.—The Treatment of Gangrene, Dr. Ralph L. Fisher
2:10 P.M. to 3:00 P.M.—CLINIC, Peripheral Vascular Diseases, Dr. Ralph L. Fisher
3:10 P.M. to 5:00 P.M.—Basic Electrocardiography, Dr. Victor R. Fisher

Dr. Donald S. Cann, P.C.O. 1935, Daytona Beach, Florida.
Dr. Leonard D. Visgerman, P.C.O. 1943, Forest Hills, Queens, N. Y.
Dr. J. W. Meehan, K.C.O.S. 1936, Battle Creek, Michigan.
Dr. I. Siegel, P.C.O. 1946, Lititz, Penna.
Dr. Frederick Hetzel, K.C.O.S. 1942, Kirksville, Missouri.
Dr. Albert Kette, P.C.O. 1943, Hatfield, Pennsylvania.
Dr. K. J. Davis, K.C. 1933, Kansas City, Missouri.
Dr. Charles Lichtenwalner, P.C.O. 1939, Pottstown, Pennsylvania.
Dr. Harry Mintzer, P.C.O. 1935, Woodlynne, N. J.

THE GRADUATE SCHOOL

PEDIATRICS

Another semester of graduate work in Pediatrics was concluded June 3, 1948. This term was devoted to lectures, ward walks, and clinical experience and Special lectures were presented by members of other departments, chiefly, department heads. The following pursued this work.

Dr. Isabel Wilcox, P.C.O. 1929, Atlantic City, New Jersey.
Dr. Harold Goldberg, P.C.O. 1944, New York City, N. Y.
Dr. James M. Hotham, P.C.O. 1937, York, Pennsylvania.
Dr. Julius S. Siegel, P.C.O. 1940, Fall Church, Virginia.
Dr. Sidney Slatkin, P.C.O. 1944, West Collingswood, New Jersey.

RADIOLOGY

Dr. Clyde Henry, Brothers College, Drew University, D.O., P.C.O. 1943, has completed five years of Graduate work in Radiology. The Graduate School awarded him the degree, Master of Science in Osteopathy, June 5, 1948.
OBSTETRICS
Dr. Lester Eisenberg, Temple University, D.O., P.C.O. 1938, has completed five years of Graduate work in Obstetrics. The Graduate School awarded him the degree, Master of Science in Osteopathy, June 5, 1948. Dr. Eisenberg’s work was interrupted by five years of military service during which time he attained the rank Captian of Artillery (anti-aircraft).

PATHOLOGY
Dr. Dominick Ambroseccio, Chicago College of Osteopathy, 1945, will be transferred to the service of Dr. Morhardt, of the College of Osteopathic Physicians and Surgeons, September 1948.
Dr. Morris Osattin, Temple University, D.O., P.C.O. 1947, now an intern at the Bangor Osteopathic Hospital, will enter the Graduate School, Department of Pathology, November 1, 1948.

SURGICAL PATHOLOGY
The Graduate course in Surgical Pathology for Surgeons which began March 13, 1948, has now carried through fourteen weeks. The remaining two weeks will be presented after the summer holiday. The following are the surgeons regularly enrolled.
Dr. John Atkins, P.C.O. ’36, Lancaster, Pa.
Dr. Abraham Levin, P.C.O. ’35, Philadelphia.
Dr. Roscoe Smedley, P.C.O. ’27, York, Pa.
Dr. Enrico D’Alonzo, P.C.O. ’27, Philadelphia.
Dr. Merritt Davis, P.C.O. ’31, Wilmington, Del.

REFRESHER COURSE
The Refresher Course announced for the week June 7th to 12th inclusive was cancelled because of insufficient applicants. The Committee on Graduate Study is considering a plan whereby this course might be presented during the winter months to physicians of this general vicinity one day per week.

FACULTY ACTIVITIES
FOUNDER’S DAY CHAIRMAN
Dr. H. Willard Sterrett, Sr., Professor of Urology, senior member of the Faculty, has accepted the appointment by Dean Dressler as Chairman of the Special Faculty Committee for proper celebration of the 50th Anniversary of the Founding of the College. The college was incorporated under the Laws of New Jersey January 24, 1889. Founder’s Day has been established on the calendar as January 24th each year. Because of the significance of our 50th Anniversary the date may have to be changed this year to coincide with other celebrations.

DR. DEMING RESIGNS
Dr. Guy Deming, A.B., Harvard, D.O., Phila. College of Osteopathy, 1937, Assistant Professor of the Principles of Osteopathy, has signified his intention to resign. His reasons, to retire.

On the Firing Line!

HAROLD M. OSBORN, D.O.

EDITOR’S NOTE—This is the fourteenth of a series of thumb-nail sketches of P.C.O. alumni who are carrying the torch of Osteopathy and for the Philadelphia College—men and women out in the field whose everyday lives have no glamorous side, but whose devotion and fidelity to duty make them a credit to their profession and to the college they represent.

SELECTED by the Editorial Board of the Osteopathic Digest as the outstanding alumni of the Philadelphia College for this issue of the Digest is DR. HAROLD M. OSBORN, President of the Illinois Osteopathic Association, and practicing osteopathic physician of Champaign, Ill., who bids fair to achieve in the field of Osteopathy the fame he attained in track athletics as one of the most famous of jumpers and all-round athletes.

Dr. Osborn, who was assistant track coach at the University of Illinois, 1940 to 1945, was graduated from the university in 1922 after a brilliant career in athletics. Continuing his competition after leaving the University, Dr. Osborn held six world’s records, two Olympic championships, twenty United States championships, one British, two Canadian titles and other European championships. Even today his standing high jump indoors of 5 feet 6 inches made at St. Louis in 1936 is the best that has ever been accomplished.

Dr. Osborn’s world record in the high jump, 6 feet 8¼ inches, was established on Illinois field, May 27, 1924, during a tryout for the American Olympic team. This record stood for many years.

As late as 1936 Dr. Osborn cleared 6 feet 8¼ inches, one of his best jumps, although not a world’s record.

In the Olympics at Paris in 1924, Dr. Osborn shared with Bud Houser of Southern California, the distinction of being the only Americans to win two events. Dr. Osborn set a new Olympic record of 6 feet 6 inches and piling up a new world’s and Olympic record of 7710 points in the decathlon.

Dr. Osborn was graduated from P.C.O. in 1937, beginning practice in Champaign in 1931. He was Trustee, Fifth District, Illinois Osteopathic Association, 1945-47; president-elect, 1947-48; State delegate to A.O.A., 1947 and 1948. He has been actively connected with the Osteopathic Progress Fund in the Fifth District, and now the State of Illinois, and with the Permanent Home Fund.

The Drickey salutes a noted athlete and outstanding leader in the Osteopathic profession.

IMPORTANT NOTICE
Applications for summer class beginning September, 1949, are now being processed. Last day for acceptance of applications, Feb. 1, 1949.
The

Osteopathic Progress Fund

A program for the advancement and perpetuation of a Profession.

So far, this picture, and all that it represents, express only the hope of the future for the PHILADELPHIA COLLEGE and its Hospital. It will never materialize without YOUR support, and that of your friends.

Make your contributions to the PHILADELPHIA INSTITUTIONS through the OSTEOPATHIC PROGRESS FUND

139 N. Clark St., Chicago 2, Ill.,

or

OSTEOPATHIC FOUNDATION of PHILADELPHIA

New Horizons...

New vistas of professional prestige in the advancement of the Osteopathic Therapy are indicated in the ambitious, long-range plans now under way for the future development of Osteopathy, through the physical expansion of its institutions, under the joint sponsorship of the

Osteopathic Progress Fund and the Osteopathic Foundation of Philadelphia

(Above: Aerial view of the Philadelphia College of Osteopathy and the Osteopathic Hospital of Philadelphia)
